RE: Hayman Construction

To Whom It May Concern:

Please be advised that London Health Sciences Centre has retained the services of Hayman Construction on several occasions for both renovations and major new construction projects at the hospital. The work has been completed to our satisfaction within budget and established time frames. Hayman Construction has shown their willingness to work with our Consultants, has always acted in a professional manner and has displayed great flexibility to accommodate the various demands placed upon them to meet our requests. Their technical expertise and advice has proved invaluable to successfully completing these projects.

We recommend this firm for your renovation or construction projects, and would be pleased to discuss if additional details are required.

Yours truly,

Al Serpa, MAATO, BCQ Project Coordinator

al Serso
